Title: **JP8307541A2: REMOTE MONITORING DEVICE**
 Country: **JP** Japan
 Kind: **A**
 Inventor: **SAKAKI NORIMI;**
YAMAZAKI HIROSHI;
 Assignee: **HITACHI BUILDING SYST ENG & SERVICE CO LTD**
[News, Profiles, Stocks and More about this company](#)
 Published / Filed: **Nov. 22, 1996 / May 10, 1995**
 Application Number: **JP1995000111862**
 IPC Code: **H04M 11/00; G08B 25/00; G08B 25/08;**
 Priority Number: **May 10, 1995 JP1995000111862**
 Abstract:

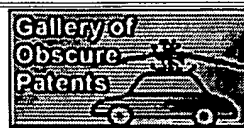

PURPOSE: To provide the remote monitoring device with which the amount of data to be transmitted can be suppressed to an irreducible minimum.

CONSTITUTION: Respective pieces of facility equipment 1 and monitoring terminal equipment 2 for collecting the state data of these pieces of facility equipment 1, storing those data and transmitting various kinds of collected data through a telephone line 3 to a data collection center C spontaneously or corresponding to the request of the data collection center C are provided inside a building T and the data collection center C is provided with a function for storing various kinds of data for each building and for each piece of facility equipment 1 transmitted by the monitoring terminal equipment 2 and for editing various kinds of data. Concerning such a remote monitoring device, the monitoring terminal equipment 2 is provided with a function for selectively transmitting only the change flags of respective data items and the changed data to the data collection center C when transmitting data from the monitoring terminal equipment 2 to the data collection center C.
